

PRODUCT DEVELOPER

we might just have the right
**TECHNOLOGY
module for you**

Reduce
your development
time with our
**UC
PLATFORM**

We have a range of IOT (Internet of Things) embedded network technology in the form of Network Processor Units (NPU) modules. These modules are designed to augment any existing physical product range, give it an IP address and allow users to monitor and control it via the LAN or Internet.

Need to manage
multiple **Network
Processor Unit (NPU)**
modules in your system?
Not a problem !
Thats where our UC Platform
comes in handy

WE ARE SUPPLYING
TECHNOLOGY IN THE
FORM OF PRODUCTION
READY MODULES,
**INTEGRATED
DEVICE AND
SYSTEM
FRAMEWORK**

SMART POWER STRIP

Construct a Smart Power Strip using our technology. What features would the Smart Power Strip have? It can be wireless controlled from a smart device, switch it on/off, measure the power consumption and even time schedule it to operate independently. Features are very much dependant on how you make use of our App Development Kit.
